GUIDE FOR ABSENTEE BIDDERS

All bids must be received 6 business hours prior to the Auction Session. Your Absentee Bid Form should contain bids for one sale only; the sale name and sale number should appear at the top. Please place your bids as early as possible. In the event of identical bids, the earliest bid received will take precedence.

Bidders MUST read through our Terms and Conditions before submitting bids. These terms contain important information regarding our guarantees, billing, shipping, and return policies.

ABSENTEE BIDS

If you are unable to attend the auction in person, and wish to place bids, you may give Goldberg's bid department instructions to bid on your behalf. Our representatives will try to purchase the lot for the lowest price possible, and will not purchase the lot for more than you indicate. This service is free and confidential. Note: Ira & Larry Goldberg Coins & Collectibles, Inc. offers this service as a convenience to clients who are unable to attend the sale in person, and although we will make every effort, we will not be responsible for error or failure to execute bids.

PLACING ABSENTEE BIDS

To place bids, please use the Absentee Bidder Form provided in this catalog. Be sure to accurately put the lot number and the maximum price you are willing to pay on each lot. Always indicate a top limit or the amount which you would bid if you were attending the auction in person. This amount should not include the buyers commission noted in chapter 16 of the "Terms and Conditions of sale".

MAIL BIDS

When bidding by mail, you frequently purchase lots for less than your maximum bid. On the floor of the auction, bidding will open at 5-10% above the second highest mail bid: We act on your behalf as the highest mail bidder. If the auctioneer recognizes no other bids from the floor, you will be awarded the lot at the opening bid. If bidding proceeds from the floor, the company, acting as your agent, bids in increments over the previous bid. This process is continued until you are awarded the lot or you are outbid by the floor.

LIMIT BIDDERS

If you have a "limit" that you must stay within you must clearly notate this limit on your bid sheet. We will buy your lots as inexpensively as possible but will not exceed your "limit".

"OR BIDS"

Alternative bids should be indicated by using the word "OR" between the lot numbers. Then if your bid on an early lot is successful, we will not continue to bid on any other lots for you. Or, if your early bids are unsuccessful, we will continue to execute bids for alternative lots until a bid is successful. Bids must always be placed in the same order as the lot numbers appear in the catalog.

TELEPHONE BIDS

Bids may be placed by telephone, but are accepted only at Ira & Larry Goldberg Coins & Collectibles, Inc. discretion and at the risk of the telephone bidder. **We will not be responsible for error or failure to notify the customer in a timely manner during the auction.** The telephone bidder must notify the company at least 24 hours prior to auction all lots the bidder is interested in bidding on. The telephone bidder should have a preconceived idea of the top limit that he/she would like to bid prior to auction. In some instances, the representative of the company will request this information at the time of auction. This information assists us in the bidding process by giving us a range to stay active in the bidding. We will not notify the auctioneer of your limit and will buy your lot at the lowest price possible.

INTERNET BIDDING

Internet bidding is available via GoldbergLive. **You must be registered with our firm to be able to participate in the internet bidding process.** You may view our online catalogues and bid live on our website. Instructions and details are available online. You must be pre-approved to bid via the web. Please note that network down time or internet speed may interfere with bidding. **All internet bids are executed LIVE on the floor during auction. We cannot stop our auction due to technical difficulties. This service is free and confidential. Standard 20% premium.** To log in or bid, please go to goldbergscoins.com. Click the Log in or Bid button at top left.

BUYER'S PREMIUM

The "top limit" you indicate on your bid form is for the hammer price only. Please keep in mind that a buyer's premium will be added to the successful bid price of each lot you buy and is payable by you, together with the applicable sales tax and shipping charges which is applied to the total cost of your purchase (the total cost includes the buyer's premium).

SUCCESSFUL BIDS

Successful bidders will be notified and invoiced within a few days of the sale. Prices realized are posted on our website immediately following each session, and are subject to change until the completion of the sale.

TERMS AND CONDITIONS OF SALE

These Terms and Conditions of Sale set forth the terms of a public auction sale conducted in Los Angeles, California by Ira & Larry Goldberg Coins & Collectibles, Inc., a Nevada corporation, California Auction Bond No. 3S95453300 (hereinafter, the "Auctioneer" or "Goldberg"). The Terms and Conditions of sale, the glossary, if any, and all other contents of this catalog are subject to amendment by us by the posting of notices or by oral announcements made during the sale. By participating in any sale, you acknowledge that you are bound by these terms and conditions.

1 This catalog contains the description of property of multiple consignors (the "Consignors"), and may include consignments from Ira & Larry Goldberg Coins & Collectibles, Inc., its principals, and affiliated or related companies and their employees, officers, or principals. All persons seeking to bid, whether in person, through an agent or employee, or by telephone, facsimile or mail, must have a catalogue and register to bid at the auction, either by completing a registration card or by completing the bid sheet incorporated into the catalogue. The Purchaser acknowledges that an invoice describing a lot by number incorporates the catalogue by reference.

2 By submitting a bid, whether in person, by mail, by phone, by facsimile or through an employee or agent, the Bidder acknowledges (i) receipt of the catalogue, (ii) that the Bidder has read the Terms and Conditions of Sale and the descriptions for the lots on which they have bid, and (iii) that they agree to adhere to these Terms and Conditions of Sale. Acceptance of Bids: Anyone wishing to place bids on lots who will not be attending the live auction must submit their bid(s) at least six (6) business hours prior to the auction session. Bidder is responsible for verifying said bids were received by Goldberg.

3 Each Bidder's determination of its bid should be based upon its own examination of the item(s), rather than the grade represented in this Catalogue or elsewhere. In any purchase or sale, the value of the item(s) is determined by the price. THE PURCHASER HEREBY ASSUMES ALL RISKS OF VALUATION CONCERNING ANY AND ALL PURCHASES. All Floor Bidders acknowledge that the Auctioneer can decline to accept bids from the a Floor Bidder who is known to have not, in fact, examined the lot prior to the sale.

4 All material shall be sold in separate lots to the highest Bidder as determined by Auctioneer. If any dispute arises during or immediately after the sale of a lot, Auctioneer shall have the right to rescind the lot offered and put the lot up for sale again. In all cases, Auctioneer's decision shall be final. For the protection of any Mail Bidder, no "unlimited" or "buy" bids will be accepted. Ira & Larry Goldberg Coins & Collectibles, Inc.

shall have the right in its sole and absolute discretion to reject any such bid received. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder must bid higher than the highest mail bid to be awarded any lot.

5 Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless the Auctioneer determines otherwise. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise.

6 All lots may carry a reserve. For purposes of these Terms and Conditions of Sale, a reserve means a confidential price below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for the account of Goldberg.

7 The Auctioneer may open the bidding on any lot by placing a bid on behalf of the seller; a Bidder by mail, telephone or facsimile; or any other participant in the sale. The Auctioneer may also bid on behalf of the Consignor up to the amount of the reserve, by (i) accepting bids from floor agents on behalf of the Consignor, or any affiliated or related company of the Auctioneer or the Consignor; (ii) by placing successive or consecutive bids for any lot; or (iii) by placing bids in response to other Bidders.

8 Auctioneer reserves the right, at his sole discretion, (i) to accept or decline any bid, (ii) to accept or decline any challenge to any bid or bidding increment, (iii) to reduce any mail bid received, (iv) to open the bidding of a lot at any level deemed appropriate by the Auctioneer, and (v) to determine the prevailing bid. Bids will not be knowingly accepted from persons under eighteen (18) years of age without a parent's written consent containing an acknowledgment that the Terms and Conditions of Sale herein and indicating their agreement to be bound thereby on behalf of the Bidder.

9 It is unlawful and illegal for Bidders to collude, pool, or agree with another bidder to pay less than the fair value for a lot. Bidders in the sale acknowledge that the law provides for substantial penalties in the form of

treble damages and attorneys' fees and costs for those who violate these provisions.

10 Ira & Larry Goldberg Coins & Collectibles, Inc. reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Purchaser has taken physical possession of the lot. No Consignor who has registered to bid at the sale (or at any other time unless otherwise provided in the consignment agreement), or any Purchaser or prospective Bidder shall have a right to claim any damages, direct, consequential or otherwise, if a lot is withdrawn, even after the sale.

11 GOLDBERG IS NOT RESPONSIBLE FOR ERRORS IN BIDDING. A Bidder should make certain to bid on the correct lot and that the bid is for an amount **plus the Twenty percent (20%) Buyer's Commission on Goldbergs Site/Twenty Three percent (23%) LiveAuctioneers** that he or she is willing and able to pay. Since other Bidders (by mail, facsimile or other electronic media and in person) will be present, and since a re-offering could damage the momentum of the sale, once the hammer has fallen and the Auctioneer has announced the winning Bidder, such Bidder is unconditionally bound to pay for the lot, even if the Bidder has made a mistake.

12 THIS IS NOT AN APPROVAL SALE. All lots sold to the highest Bidder as determined by Auctioneer are final. Floor Bidders are encouraged to carefully examine all lots which they are interested in purchasing because all sales of items viewed by Purchasers in advance of a sale, even if the sale is by mail, telephone or facsimile, and all lots bid upon by the Floor Bidders, together with all those presenting Goldberg with a **(Continued on next page)**

resale certificate, out of state resale certificate, or similar evidence that they are acting as a dealer ARE FINAL AND SUCH ITEMS MAY NOT BE RETURNED. If the description of any lot in the catalogue is incorrect, the lot is returnable if returned within five (5) calendar days of receipt, and received by Goldberg no later than twenty-one (21) calendar days after the sale date. No return or refund of any auction lot will be considered except by reason of lack of authenticity, unless otherwise provided in these Terms and Conditions of Sale. All lots are sold under the condition that any claims challenging grading, authenticity or methods of manufacture must be made in writing within five (5) calendar days of receipt of material.

All disputed lots must be returned intact as received in their original, sealed and unopened container. Late remittance or removal of any lot from its original container constitutes just cause for revocation of all return privileges for any reason.

13 All prospective Bidders who are allowed the opportunity to examine lots prior to the sale shall personally assume all responsibility for any damage they cause in so doing. Goldberg shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by the prospective Bidder.

14 Title to any lot remains with Consignor, any secured party of the Consignor, or assignee of Consignor, as the case may be, until the lot is paid for in full by Purchaser. Goldberg reserves the right to require payment in full before delivering any lot to the successful Purchaser.

15 It is the Purchaser's responsibility and obligation to have the lots fully insured while in his or her possession. Purchaser assumes any and all RISK OF LOSS once the lot(s) is in Purchaser's possession.

16 **BUYERS COMMISSION of Twenty percent (20%) Buyer's Commission on Goldbergs Site/Twenty Three percent (23%) LiveAuctioneers** will be added to all purchases made by all Purchasers, except Consignors, regardless of Purchaser's affiliation with any group or organization, and will be based upon the total amount of the final bid.

17 Pursuant to a separate agreement with Auctioneer, Consignors or their agents may be permitted to bid on their own lots in the sale and may receive a rebate commission in whole or in part if successful. Under some circumstances, Goldberg may agree with a Consignor (i) not to require the Consignor to pay for all or part of any items bid upon or re-purchased by the Consignor; (ii) when or where an advance has been made, to have the Consignor pay an agreed upon difference to Goldberg; or (iii) to allow an offset against other transactions with Consignor. Where the Consignor has re-purchased a lot and the

lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Goldberg reserves the right to so note in the prices realized or to omit a price from the price realized. Every Consignor who registers to bid in the sale, whether to "protect" a lot, or for any other purpose, agrees to all other Terms and Conditions of Sale per this agreement.

18 Lots must be paid for within 14 days of receipt of invoice or delivery. Unless otherwise agreed in writing, auction sales are strictly cash above \$2,500.00 in U.S. Funds payable through a bank in the United States. Contact Goldberg for wiring instructions before sending a wire. Goldberg reserves the right to decline to release lots for which funds have not yet cleared. Credit card (Visa & Mastercard only) purchases will be accepted on totals not exceeding \$10,000. A surcharge fee of 2.5% will be added to the final invoice amount. "By purchasing an item direct or at the auction and allowing Goldberg Coins & Collectibles Inc. to charge your credit card, you are agreeing to the terms and conditions set forth herein, and further agree that the transaction shall be governed by California law, without regard to any conflict or choice of law provision." On any cash transaction or series of transaction exceeding \$10,000, Treasury Form 8300 may be filed.

19 Purchaser agrees to promptly pay, on demand, any sales tax, or any other tax, if required by law to be collected, postage, handling, and shipping insurance **plus the Twenty percent (20%) Buyer's Commission on Goldbergs Site/Twenty Three percent (23%) LiveAuctioneers** and any other taxes required by law to be charged or collected, together with any interest or penalty that may be assessed.

20 Purchaser grants to Goldberg or its assigns the right to offset any sums due, or found to be due Purchaser by Goldberg, and to make such offset from any past, subsequent or future consignment, or items acquired by Purchaser in possession or control of Goldberg or from any sums due to Purchaser by Goldberg. Purchaser further grants Goldberg a purchase money security interest in such sums or items to the extent applicable, and agrees to execute such documents as may be reasonably necessary to grant Goldberg such security interest. Purchaser agrees that Goldberg and its assigns shall be a secured party with respect to items bought by Purchaser and in the possession of Goldberg, to the extent of the maximum indebtedness, plus all accrued expenses, until the indebtedness is paid.

21 By bidding in this sale, Purchaser personally and unconditionally guarantees payment. If the Purchaser is a corporation, the officers, directors, and principals of the

corporation hereby agree to personally and unconditionally guarantee payment as part of the corporation's agreement to bid. The authorized representative of any corporate Purchaser who is present at the sale shall provide Goldberg or its agent, prior to the commencement of the bidding (or at the time of registration), with a statement signed by each principal, director and officer that they each personally and unconditionally guarantee any payment due Goldberg.

22 No bids will be accepted from Floor Bidders and Mail Bidders who have not previously established credit with Goldberg unless they first (i) furnish satisfactory credit references or (ii) deposit at least twenty-five percent (25%) of their total bids for that session(s), or such other amounts as Goldberg may require, in its sole and absolute discretion. Any deposits made pursuant to this paragraph will be applied to such Bidders purchases. Any unused portion of such deposit will be promptly refunded upon clearance of the funds.

23 On any accounts past due, Goldberg reserves the right to extend credit and impose periodic charges, pursuant to these Terms and Conditions of Sale or as set forth in the Purchaser's invoice. If the auction invoice is not paid in full when due, the unpaid balance will earn interest at the rate of one-and-one-half percent (1 1/2%) per month until paid. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law. Goldberg further reserves the right to resell the merchandise, or to have an affiliated or related company do so. Purchaser agrees to pay all reasonable attorneys' fees, court costs and other collection costs incurred by Goldberg or any affiliated or related company to collect past due invoices, including reasonable costs of any resale of the merchandise. Purchaser also agrees to pay the difference between the resale price and any previous disbursements. Money realized from the resale shall be applied as follows: (i) to pay sums due to the consignor, (ii) to pay Goldberg standard commissions and fees for the resale, (iii) to pay Goldberg any sums owed to it by purchaser, and the remainder, if any, will be paid to the Purchaser. Goldberg reserves the right to assign its interest to any third party.

24 Goldberg may at its sole and absolute discretion, make loans or advances to Consignors and/or prospective Purchasers. **(Continued on next page)**

25 The Auctioneer may bid for his or its own account at any auction (even though it may not be required to pay a Buyer's Commission, or other charges that other Purchasers may be required to pay) and may have access to information concerning

26 If a dispute arises concerning ownership of a lot that has been bid upon, Goldberg reserves the right to commence a statutory interpleader proceeding at the expense of the Consignor and successful Purchaser and any other applicable party, and in such event Goldbergs shall be entitled to its reasonable attorney's fees and costs.

27 In the event of a successful challenge to the title to any goods purchased, Goldberg agrees to reimburse any Purchaser in an amount equal to the successful bid price actually paid by Purchaser at auction plus any Buyer's Commission actually paid, in full and complete satisfaction of all claims, such reimbursement once tendered by Goldberg, relieves and releases Goldberg from any responsibility whatsoever to the Purchaser, even if the instrument is not cashed or is returned.

28 Goldberg reserves the right to postpone the auction sale or any session thereof for a reasonable period of time for any reason whatsoever, and no Bidder or prospective Bidder shall have any claim as a result thereof, including consequential damages.

DISCLAIMERS AND WARRANTIES

ALL ITEMS OFFERED IN THIS CATALOGUE ARE GUARANTEED TO BE GENUINE. THIS IS A LIMITED WARRANTY THAT THE ITEM SOLD IS NOT COUNTERFEIT, THAT ITS DATE OR MINTMARK HAS NOT BEEN ALTERED AND THAT THE COIN HAS NOT BEEN "REPAIRED."

29 Any other warranty is expressly disclaimed; Goldberg offers no representation that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin will meet the standards or grade of any independent grading service; that any item has a particular provenance or pedigree, or that a numismatic item is struck or produced in a particular style. Any statement concerning such matters reflects an opinion only. Questions regarding the minting of a coin as a proof or as a business strike relate to the method of manufacture and not to authenticity.

a. The descriptions contained herein represent the Cataloger's good faith opinion, or the opinion of an independent grading service, as to the state of preservation and strike. When a grade from an independent grading service is utilized, the information is provided strictly for the convenience of the bidder by mail, telephone or facsimile. Bidders and Purchasers acknowledge that (i) grading is an art, not a science; (ii) the grades contained in the

catalogue represent the opinion of the Auctioneer based upon its experience; (iii) it is possible that two people will not always grade the same items alike; and (iv) as market conditions change, grading standards change, and will most likely continue to do so in the future.

NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, IS MADE WITH RESPECT TO ANY GRADE DESCRIPTION, WHICH IS MERELY AN OPINION THAT IS LIKELY TO DIFFER, EVEN AMONG EXPERTS. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING OF A LOT BY AN INDEPENDENT GRADING SERVICE.

b. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased; and the opinion of third parties (including independent grading services) may differ from the independent grading service's opinion or interpretation of Goldberg. Goldberg shall not be bound by any prior or subsequent opinion, determination or certification by any independent grading service.

c. All oral and written statements made by Goldberg and its employees (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Goldberg has authority to vary or alter these Terms and Conditions of Sale. Any alteration shall be effective only if in writing and signed by an officer of Goldberg authorized to do so.

d. Bidders shall have no recourse against the Consignor for any reason whatsoever.

e. Notwithstanding anything to the contrary in these Terms and Conditions of Sale, COINS LISTED IN ANY CATALOGUE GRADED BY PCGS, MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER.

30 By bidding in the sale, (whether in person, by mail, telephone or facsimile, or through an agent), Bidder expressly consents to the following.

WAIVER AND RELEASES

Purchaser, for himself, his heirs, agents, successors and assigns, generally and specifically waives and releases, and forever discharges Goldberg, and its respective affiliates, parents, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assigns from any and all claims, rights, demands and causes of action and suites, of whatever kind or nature, whether

in law or equity, whether known or unknown, suspected or unsuspected, which Purchaser may claim to have with respect to and/or arising out of, or in connection with any challenge to the title to any good purchased, the sale itself and/or the auction, except for reimbursement in the amount equal to any bid actually paid by Purchaser, plus any Buyer's Commission actually paid by Purchaser where such reimbursement is authorized in these Terms and Conditions of Sale. It is the intention of Purchaser that this waiver and release shall be effective as a bar to each and every claim, demand, cause of action and suit that may arise hereunder, and Purchaser hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of the California Civil Code, which reads in full as follows:

"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM MUST HAVE MATERIALLY AFFECTED HIS SETTLEMENT WITH THE DEBTOR."

31 Neither Goldberg nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms and Conditions of Sale of the auction or the conduct thereof and in no event shall liability for any such failure exceed the purchase price paid.

32 The sole remedy that any Purchaser in the auction shall have, whether such Purchase is bidding in person, by mail, by facsimile, by telephone, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any.

33 Upon payment of any disputed sum, which in no event shall be greater than the original purchase price actually paid by Purchaser plus any commission or premium actually paid by Purchaser to Goldberg, Auctioneer and its employees shall be deemed released from any and all claims of the Bidder arising out of or in connection with **(Continued on next page)**

the sale of such property. Purchaser agrees to execute prior to delivery of any refund, any documents reasonably requested to effect the intent of this paragraph. Should the Purchaser decline to do so, Purchaser hereby grants to Goldberg a limited power of attorney to unconditionally effect such release.

34 Rights granted to Bidders and Purchasers under these Terms and Conditions of Sale are personal and may not be assigned or transferred to any other person or entity, whether by operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred on any Bidder or Purchaser by these Terms and Conditions of Sale and terms of warranty. "Purchaser" shall mean the original Purchaser of the property from Goldberg and not any subsequent owner or other person who may acquire or have acquired an interest therein. If Purchaser is an agent, the agency must be disclosed in writing to Goldberg prior to the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.

35 If the Purchaser fails to comply with one or more of these Terms and Conditions of Sale, then in addition to all other remedies which it may have at law or in equity, Goldberg may at its sole option, either (a) cancel the sale, retaining all payments made by Purchaser as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell some or all of the property and (some or all other property of the Purchaser held by Goldberg, if Goldberg deems necessary), in a quantity sufficient in the opinion of Goldberg to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of Goldberg. Such sale may take place without notice to Purchaser. If Goldberg gives notice, it shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other address known to Goldberg. Such sale will be at Goldberg standard commission rates at public or private sale, within California, or at another location outside of California to be determined by Goldberg. At the time of sale the defaulting party shall not bid nor be permitted to bid. The proceeds shall be applied first to the satisfaction of any damages occasioned by Purchaser's breach, and then to the payment of any other indebtedness owing to Goldberg, including without limitation, commissions, handling charges, the expenses of both sales, reasonable attorneys' fees and costs, collection agency fees and costs and any other costs or expenses incurred thereunder. If a lot or

item is not paid for, and is sold by Goldberg for Purchaser's account, in accordance with the Uniform Commercial Code, Goldberg shall not be required to account to the Purchaser for any excess proceeds. Purchaser shall remain liable to Goldberg if the proceeds of such sale or sales is insufficient to cover the indebtedness. If other property of Purchaser is also sold, any excess of proceeds will be remitted to the Purchaser after first deducting the expenses set forth above. If Purchaser fails to remit sums due to Goldberg, Purchaser grants to Goldberg a lien with respect to such sum, with interest to accrue thereon at the legal rate, until actually paid, which lien shall apply against any property of Purchaser, including any future goods of Purchaser coming into possession of Goldberg. To the extent permitted by law, Purchaser hereby waives all the requirements of notice, advertisement and disposition of proceeds required by law.

36 These Terms and Conditions of Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, whether or not the auction is and these Terms and Conditions of Sale are fully performed in California.

37 Purchaser acknowledges and agrees that the competent courts of the State of California shall have exclusive jurisdiction over any dispute(s) arising hereunder, and Purchaser hereby agrees that any dispute arising hereunder shall be litigated exclusively in the courts of the State of California, and not elsewhere, regardless of any party's current or future residence or domicile. Purchaser further agrees that venue shall be in the Superior Court of Los Angeles, in the State of California.

RARE NEW ENGLAND SHILLING

Enlargement

293 (1652) New England Shilling, Noe-III-C, 69.75 grs.. PCGS graded EF-45. CAC Approved. Exceptionally rare undated (1652) NE Shilling, Noe III C, Salmon 3-D. Rarity 6+. 69.75 grains. There are believed to be a net of 16 examples known, but several are impounded in museums bringing to total down to 10 coins in private hands of this die pairing. The surfaces are glorious, with full definition on the simple devices. One minor scuff resides in the lower flourish of the N which hallmarks this specimen. A few planchet waves are present as well, par for the course on these rarely offered and historic coins. The patina includes the classical array of pale gold and a touch of pastel blue iridescence. In sum this is an exceptional example of this historic rarity.

Pedigree. Purchased from Lester Merkin on March 1, 1976.

Only 40 examples estimated to have survived according to PCGS Pop Report. Pop 3; 14 finer, 5 in 50, 4 in 53, 5 in 55. (PCGS # 13)

Estimated Value\$150,000 - UP

A WONDERFUL EXAMPLE OF OAK TREE SHILLING

Enlargement

- 294 **1652 Oak Tree Shilling, IN at bottom, 71.60 grs. PCGS graded MS-65.** Lovely toning, a wonderful example of oak tree shilling. This is a magnificent gem Oak Tree Shilling, IN at bottom. Noe-4, W-460, Salmon 2-D. 71.60 grains. Reverse alignment about 15 degrees counter clockwise. The oak tree fills the circle and is superbly struck up, with every nuance of the design crisp and bold. A loupe reveals the intricate die polish lines created when the dies were given their final touch up by the engraver, a feature that disappears after the briefest circulation. Here these minute details are preserved in their precision through well over three centuries of careful handling. Today the surfaces show delicate antique gold hues and glowing luster. The strike is bold and the eye appeal is remarkable.

The obverse strike is a bit off center as always seen toward 6 o' clock, but remains sharply defined, unusually so by the dies. The reverse is centered, as always on this die pair. Finding a Noe-4 this boldly struck is challenging enough, but add to this the superlative condition and you have a miraculous combination.

This example is the finest known Noe-4 and is destined for a superb collection of the historic and important Massachusetts coinage.

Pedigree: exhibited in ANS Collection in 1991 and from the Alan V. Weinberg Collection, Part III, Heritage.

Pop 1; the finest example graded at PCGS for the variety. (PCGS # 45362)

Estimated Value\$150,000 -UP

1781-DATED LIBERTAS AMERICANA MEDAL

Enlargement

- 295 **1781-Dated. Libertas Americana Medal. Betts-615. NGC graded MS-64 Brown.** Well struck with glossy fields. This is one of the most popular medals from the Paris Mint with dies by Augustin Dupre. The obverse depicts the head of Liberty facing left with a cap hoisted high on a pole up behind her head. Her hair flows freely behind as if she's facing into a stiff breeze. Above her are the words LIBERTAS AMERICANA and below her bust and a raised bar is 4 JUL 1776. This obverse design was somewhat copied for the 1793 half cents, which show the head of Liberty facing left, with her cap of freedom raised high on the pole behind her head. All other Liberty cap coinage with the pole struck in our country has Liberty facing to the right. There are three dates noted on this medal, the obverse as noted has 4 JUL 1776, the reverse has two dates, one is October 17, 1777 and October 19, 1781. The actual striking of this medal at the Paris Mint was in 1783, precious few remain this nice and desirable.

The reverse has the Goddess Minerva (representing France) defending with her shield and spear the infant baby (the United States) from the British Lion who is seen with his tail between his legs, a sign of submission. The original design was by Benjamin Franklin, with some revisions into the final product by Dupre such as the Fleur De Lis on the shield instead of on Minerva's dress. Handsome light brown with outstanding surfaces and unending eye appeal. Historic and always in feverish demand from collectors all over the world. **Pop 9; 2 finer in 65.**

Estimated Value \$20,000 - UP

SHARP EARLY STATE 1818 NEWCOMB-6

- 300 **1818. N-6, Rarity 1. NGC graded MS-64 Brown.** Lustrous bluish steel and chocolate blending to olive brown. Traces of faded mint color show on both sides, especially on the obverse. No spots or stains and the eye appeal is excellent, but there is a nick on the chin that was carefully smoothed to minimize its impact. Sharply struck EDS without the lap stone lines usually found at ICA. Called MS-60 and tied for CC#3 in the Noyes census, his photo #20901. **Pop 3; tied for the finest example at NGC for the variety.**

1864 INDIAN HEAD CENT. BRONZE

- 306 **1864. Bronze. PCGS graded Proof 65 Red & Brown.** This beauty exhibits loading golden iridescent yellow and red colors. The strike is precise and bold as expected for a Proof, and the surfaces are outstanding too, with full reflectivity and ample mint color remaining. 1864 was a transitional year for the Indian cent, the initial output continued with the copper (75%) and nickel (25%) planchets, thicker and more of a lighter silver color overall, then came the bronze planchets which are 95% copper and 5% tin and zinc. Last but not least the designer James B. Longacre's tiny initial "L" was added to the ribbon near the bottom feather on the headdress. For this bronze version, only 150 were struck. **Pop 41; 19 finer for PRRB at PCGS, 17 in 66, 2 in 67. (PCGS # 2277)**
Estimated Value\$2,000 - UP

- 307 **1869. EF-45.** Cleaned and retoned to a pleasing reddish-brown.
Estimated Value\$300 - UP

Estimated Value\$1,400 - 1,500

Estimated Value\$250 - 300

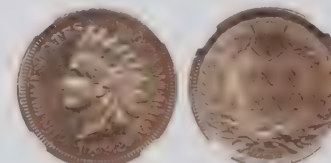

- 310 **1885. PCGS graded Proof 65 Brown.** Uniform violet-brown on obverse, some mint red on reverse. Only 3,790 struck. **(PCGS # 2342)**

Estimated Value \$350 - 400

320 1909. NGC graded Proof 66 Red Cameo. A superb fully red cameo gem! Only 2,175 struck. This is the final year of Indian cent production, the ever popular style that was soon to be replaced with the Lincoln cent later in mid 1909. Few examples offer both the red color with the desirable Cameo contrast, particularly so well preserved. A highlight coin for the advanced specialist. Pop 2; tied for the finest Red Cameo examples graded at NGC.

Nickels

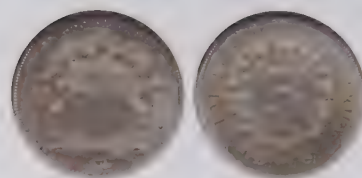

SHIELD NICKELS

- 326 1866. **NGC graded MS-64. CAC Approved.** A nice untoned example. This is the first year of issue of this new concept in American coinage, a "half dime" not of silver, but a new 5 cent coin struck on a copper and nickel planchet. Housed in an Old Style Holder.
Estimated Value \$500 - 550

- 327 1866 rays. The entire date is double struck. Should be sent back to PCGS for the correct variety. **PCGS Genuine, Cleaned-AU Details. (PCGS # 3790)**
Estimated Value \$300 - UP

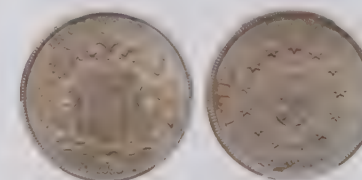

- 328 1867. Rays. **NGC graded MS-64. CAC Approved. PQ.** Nice light golden toning. After the initial designs of the Shield nickel were accepted, the Philadelphia Mint ran into production problems in that the use of nickel in the planchets (only 25%, but enough to notice) was causing the dies to crack and chip abnormally fast. This was caused by the hardness of the nickel alloy, which resisted the striking process with its density that worked against the dies. The designer knew that by reducing the complexity of the devices would make these easier to strike, so the Rays around the 5 were eliminated. The dies still cracked rapidly, but not as much as before, so this created the With Rays type coins produced only in 1866 and part of 1867. Housed in an Old Style Holder. **Pop 191; 70 finer at NGC.**
Estimated Value \$700 - 750

- 329 1867. No rays. **NGC graded MS-64. CAC Approved. PQ.** Well struck, untuned and very choice. Housed in an Old Style Holder.
Estimated Value \$250 - 300

- 330 1868. **NGC graded MS-64. CAC Approved. PQ.** Lovely golden toning on both sides, and super crisp in the strike. An early die state with just a few thin cracks, and splendid surfaces for the modest grade assigned. Housed in an Early Style Holder.
Estimated Value \$350 - 400

- 331 1868. Reverse of 1868. **FS-901 (FS-002.94). PCGS graded MS-64. CAC Approved. PQ.** Nicely toned with a few bits of gold over lustrous surfaces. Sure looks MS-65. **Pop 4; 7 finer for the variety at PCGS, 5 in 65, 1 in 66, 1 in 66+.**
Estimated Value \$350 - 400

- 332 1868. **NGC graded MS-64. CAC Approved.** A hint of light gold tone. This lovely coin shows lots of thin die cracks at the top of the obverse and reverse, rather typical of this series. Housed in an Old Style Holder.
Estimated Value \$250 - 275

- 333 1869. PCGS graded MS-64. CAC Approved. PQ. Lightly toned and well struck with clean surfaces throughout and good visual appeal. A nice looking coin. Housed in an Old Green Holder. (PCGS # 3796)
Estimated Value \$300 - 325

- 334 1870. PCGS graded MS-64. CAC Approved. PQ. Boldly struck and a hint of light tone, with satin smooth devices and attractive, clean fields. Sure looks one point better. Housed in an Old Green Holder. Pop 100; 78 finer at PCGS. (PCGS # 3797)
Estimated Value \$500 - 550

- 335 1870. PCGS graded MS-64. CAC Approved. PQ. A hint of light tone. A lovely example for the type or date collector. Housed in an Old Green Holder. Pop 100; 78 finer at PCGS. (PCGS # 3797)
Estimated Value \$500 - 550

- 336 1871. NGC graded MS-64. CAC Approved. A frosty example of this low mintage date, only 561,000 pieces were coined, and not many mint state coins exist today. Well struck and lustrous throughout. Housed in an Early Style Holder. Pop 24; 24 finer at NGC.
Estimated Value \$900 - UP

- 337 1872. NGC graded MS-64. CAC Approved. Frosty and untuned. Housed in an Early Style Holder. Pop 70; 48 finer, 35 in 65, 11 in 66, 2 in 67.
Estimated Value \$400 - 440

- 338 1873. Closed 3. NGC graded MS-63. CAC Approved. PQ. Well struck with a light hint of gold tone. The Closed 3 design was issued for a very short time during the first weeks of 1873 until it was noticed that the final 3 could cause confusion as to being an "8". Hence new dies with a more open style 3 were made for most of the denominations. Housed in an Old Style Holder. Pop 11; 40 finer at NGC.
Estimated Value \$500 - 550

- 339 1873. Open 3. NGC graded MS-64. CAC Approved. PQ. Nice light toning. Housed in an Old Style Holder. Pop 24; 23 finer, 15 in 65, 2 in 65+, 6 in 66.

Estimated Value \$600 - 650

- 342 1876. NGC graded MS-64. CAC Approved. PQ. Mostly untuned with reflective fields. A scarce date when found this nice, and the Centennial issue of this country. Pop 108; 41 finer, 35 in 65, 2 in 65+, 4 in 66.
Estimated Value \$350 - 400

- 343 **1879. PCGS graded MS-65. CAC Approved. PQ.** A hint of light gold tone. Boldly struck and a gem with CAC approval. A low mintage date which is seldom seen and rarely offered in mint state grades, let alone gem as seen here. Just 25,900 minted in all for the year, and precious few survive! PCGS records 233 grading events, undoubtedly with some duplication in this number, which spans grades from PR01 to MS67 at the top currently. This is one of the key dates to the series, topped only by the 1880 which has an even lower mintage! **Pop 30; 34 finer at PCGS. (PCGS # 3808)**
Estimated Value \$2,700 - 3,000

- 344 **1879. NGC graded Proof 64. CAC Approved.** Nice deep toning.
Estimated Value \$325 - 350

- 348 **1882. PCGS graded MS-64.** Well struck and nicely toned with golden hues over nickel gray. Housed in an Old Green Holder. **(PCGS # 3812)**
Estimated Value \$200 - 225

- 349 **1882. PCGS graded MS-64.** A bright and frosty example of this late date Shield nickel. **(PCGS # 3812)**
Estimated Value \$200 - 225

- 350 **1883. PCGS graded Proof 66.** Mostly untuned. Outstanding quality, with boldly mirrored fields and well frosted devices in contrast. Amazing quality and rarely seen better. Only 5,419 struck. **Pop 227; 64 finer at PCGS. (PCGS # 3838)**

Estimated Value \$225 - 250

- 352 **1883/1883. FS-012.9. NGC graded MS-63.** Mostly untuned, but generally frosty and bright with a hint of sunset tone. This is the final year the Shield nickel design was produced, and soon Liberty nickels were filling the bins at the Philadelphia Mint, while these handsome Shield nickel designs were shelved. Housed in an Old Style Holder. **Pop 5; 7 finer for the variety at NGC, 3 in 64, 1 in 65, 3 in 66.**
Estimated Value \$200 - UP

- 353 **1883. PCGS graded MS-63. CAC Approved. PQ.** Well struck and undergraded. Lovely mark free surfaces with pleasing mint luster and color throughout. **(PCGS # 3813)**
Estimated Value \$170 - 180

- 354 **1883. NGC graded MS-63.** The date is double struck. No mention on the holder.
Estimated Value \$150 - 160

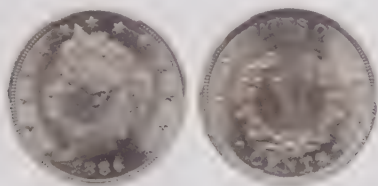

- 355 **1883, 3 over 2. NGC graded MS-63.** Nice light toning and one of the key coins to the Shield nickel series. Not many survived at all, and this one is choice. A scarce coin in high grades of mint state. Don't miss this opportunity to buy a condition rarity that is highly collectible. Housed in an Old Style Holder. **Pop 11; 27 finer at NGC.**
Estimated Value \$1,100 - 1,200

1937-D 3 LEGS BUFFALO NICKEL

Enlargement

- 430 1937-D. 3 legs. PCGS graded MS-63. CAC Approved. PQ. Nicely toned. A real nice example that should be graded higher. This is one of the most popular die blunders of the 20th Century. Apparently this is what happened back in 1937 at the Denver Mint. Two dies clashed and a younger man at the Mint was told to file down the dies in order to remove the evidence of die clashing, being new to the job, he went a bit heavy handed and actually filed off the bison's front leg in the process from the reverse die! Hence the 3 Legged Buffalo was born as coinage resumed striking with the newly filed reverse die. The 3 Legged coins have been in strong demand ever since they were discovered and are rarely found this nice as most entered circulation and stayed there long before being noticed and saved. In PCGS old green holder. (PCGS # 3982)

HUGE O VARIETY 1854-O LIBERTY SEATED QUARTER DOLLAR

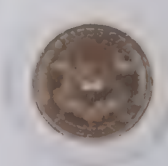

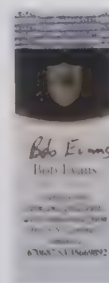

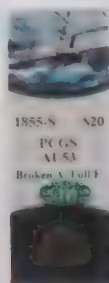

Enlargement

- 616 1854-O. Arrows, huge O. PCGS graded AU-55. CAC Approved. PQ. Mostly untoned and well struck. It appears that a reverse die with no mintmark arrived at the New Orleans Mint in 1854, the coiner noticed the error and took his engraving tools and added an O to the reverse in the proper place. Its came out a bit oblong and lopsided, but he got the job done. This created on of the most sought after coins of the series, which has always remained rare and hard to find at all, especially so in top grades like this offering. Somehow, this lovely example ended up on the *S. S. Central America* where it was recovered many generations later and is one of the finest seen today. Pop 2; only 2 graded finer in 58 for the Huge O variety, as no Mint State example is known.

Estimated Value\$10,000 - UP

- 617 1855-S. Broken A, Full E. PCGS graded AU-53. CAC Approved. PQ. A nice frosty example that shows just a touch of light wear on the high points of the design and ample luster to please the eye. An earlier date than usually encountered from this famous 1857 shipwreck. Pop 2; 20 finer at PCGS for the variety.

PROOF LIKE LOOKING 1856-S \$20

- 618 1856-S. No Serif. Full A. PCGS graded MS-62. CAC Approved. PQ. Reflective fields on both sides. These amazing double eagles recovered from the *S. S. Central America* shipwreck sometimes show mirror like fields as seen here, not all qualify for the desired "Prooflike" designation, but this one certainly comes close. A handsome example of this scarcer date from this famous shipwreck. A coin with great visual appeal and pleasing surfaces. **Pop 5; 1 in 63, 1 in 64+.** Sure looks MS-63 Prooflike.

MINT STATE 1856-S \$20 LIBERTY

- 619 1856-S. No Serif, Left S. PCGS graded MS-60. A nice frosty example with some reverse discoloration that looks to have been partially removed. Remember that coins recovered from the shipwreck at 8,000 feet or so below the surface were not all packed together, but many were scattered on the ocean bottom along with a variety of debris from the shipwreck itself. Perhaps something from the ship rested against this coin for many years to create the unusual color on part of the reverse. What is important is the obverse and reverse are much nicer in quality than the grade would imply. **Pop 1; only 4 examples graded higher at PCGS for the variety, 3 in 62, 1 in 64.**

A WONDERFUL EXAMPLE OF 1857-S SPIKED SHIELD \$20.

620 1857-S. Spiked Shield.. PCGS graded MS-65. CAC Approved. PQ. Well struck and fully white. Looks like a MS-66. A glorious example of this double eagle, in outstanding condition and with fantastic eye appeal. The strike is sharp throughout, and the surfaces are amazing to behold with nary a nick or scuff to be found. This one is housed in a larger than normal PCGS holder to encompass a pinch of gold dust that was also recovered from the S. S. Central America shipwreck. A visual treat for the numismatist who appreciates quality and eye appeal.

UNBELIEVABLE PROOF-LIKE 1857-S \$20 LIBERTY

Enlargement

- 621 **1857-S. B2-1, Spiked Shield.. NGC graded MS-65 Prooflike.** A blazing untuned gem. Specially struck that is fully prooflike. An amazing example which we feel is a special striking. Full mirror field on the strips of the shield below the Eagle's head. Probably the first strike at the San Francisco mint in 1857. The eye appeal is absolutely stunning here, with bold mirror reflectivity and a full and sharp strike. The surface are incredible too, with nary a nick or bagmark to be found, this is all the more incredible on these delicate mirror surfaces. Precious few of the S. S. Central America double eagles show any degree of prooflike reflectivity and most are satiny and lustrous. Only the first few coins struck from fresh polished dies show this degree of mirror fields and contrast.

Early on when the first and largest group of 1857-S double eagles were recovered from this shipwreck, PCGS was not designating any of these as Prooflike as there were so few that qualified for this designation that they were just considered early strikes of mint state coins. Later as more and more of these prooflike coins were submitted for grading of later dates and not from any shipwrecks, a separate designation was included for the coins that qualified with enough depth to the reflectivity for the prooflike designation, similar to that on Morgan silver dollars. This sparkling jewel is one such coin with the incredible mirror surfaces in the fields and gem quality too. As time has evolved PCGS has added the Prooflike designation to these early double eagles, if they qualify, but thus far none have graded finer than MS-64+ Prooflike at that grading service. This this is one of the finer examples to be recovered and one of the precious few to show this degree of mirror depth and reflectivity. A stunning coin in hand! **Pop 2; 5 finer, 4 in 66+, 1 in 67.**

- 624 1855/4 Quarter Dollar Octagonal. Breen and Gillio-106. Rarity 3.. PCGS graded Details of Uncirculated, Damage. Holed. This coin is in fairly nice condition but has been holed, perhaps for suspension by sailor who happened to be on the *S. S. Central America* ship. Once the ship went down in 1857 these artifacts were presumed lost to eternity, until the 1990s when the technology developed that allowed for deep autonomous shipwreck recovery from incredible depths of a mile and a half deep. Not only were single coins brought up from these depths, but huge gold bars weighing many pounds. Later in 2014 the Purser's Safe was recovered from nearby the shipwreck and brought to the ocean surface, and within it were these desirable and historic California Pioneer Fractional Gold coins that circulated in the San Francisco area during the early years of the Gold Rush. Not many were found, but confirm that these historic coins were indeed in change at the time in 1857 as the Gold Rush activity reached its zenith.

A handsome example of one of these rare early California Pioneer Fractional Gold pieces that was recovered from the *S. S. Central America* shipwreck. Although the surfaces show some minor environmental damage, the all important diagnostics are clear to identify this coin. Housed in the special holder with a pinch of gold dust also recovered from this shipwreck. This coin was struck and in circulation the year prior to the departure of the various folks who left San Francisco on that voyage on their way to the East Coast.

- 626 n.d. (1853) Quarter Dollar Round. Breen and Gillio-206. High Rarity 4.. PCGS graded Details of Uncirculated, Holed. An important discovery within the purser's safe of the *S. S. Central America* shipwreck as these small, fractional gold coins were used as small change during the heyday of the California Gold Rush in the early to mid 1850s. This die pairing was reasonably available, in fact an example of the BG-206 was also recovered on the *S. S. Winifred Scott* which sunk on December 1, 1853. Talk about the ultimate shipwreck pairing! Anyway, this one is from the Central America which sunk in September of 1857. One surmises that this particular coin was holed for later suspension by a sailor traveling home to the East.

- 627 1854 Quarter Dollar Round. Breen and Gillio-216. Rarity 6.. PCGS graded Details of Uncirculated. This coin was struck with reground dies and hence the detail is muted particularly on the wreath. The die pairing is clearly visible and this one was struck in 1854 for general circulation in and around the San Francisco area. Someone carried it along on the ship to Panama, and it ended up on the northbound ship which was of course, the *S. S. Central America* which unfortunately sunk in September 1857 during a hurricane well offshore of North Carolina. This coin was recovered from the Purser's Safe, which was brought to the surface of the ocean in 2014. Precious few California Pioneer Fractional Gold coins were found from this wreck.

Here is another rare die pairing that was recovered from the wreck of the *S. S. Central America*, this coin was recovered from the Purser's Safe, which was finally brought to the surface of the ocean in 2014. The surfaces are still attractive and show some minor roughness from long exposure to sea water. This coin is now housed in a custom holder with a pinch of gold dust that was also recovered from the shipwreck from 1857. A rare coin too, with perhaps 30 examples known in all, this one long hidden from the numismatic community until just recently when it was recovered.

Central America* shipwreck that was tucked away inside the Purser's Safe, used to hold sailors valuables and pay them upon arrival in port. Housed in a splendid large PCGS holder which includes a pinch of gold from shipwreck as well. The environmental damage was likely caused by the amount of copper alloy used to coin these early fractional gold coins and its long exposure to seawater.

This is one of a tiny group of California Pioneer Fractional Gold coins recovered from the *S. S. Central America* shipwreck. All of these Fractional Gold coins show environmental damage due to the copper alloy used in the gold planchets, the copper was used to strengthen these tiny coins and make them more durable in circulation. Here is another rare example of this popular issue that was just recovered (2014) from the *S. S. Central America* shipwreck. This particular issue was roughly 18K gold on the surface, with a core of roughly 14K gold. - 632 1856 Half Dollar Octagonal. Breen and Gillio-307, High Rarity 5. PCGS graded Details of Uncirculated, Environmental Damage. This is the first offering of an California Fractional Gold coins that were recovered from the *S. S. Central America* shipwreck. The obverse design is that of a head of Liberty facing left, with thirteen star surrounding on the octagonal planchet. The reverse is the classic design which states CALIFORNIA GOLD surrounding, with a beaded circle below, within the circle is 1/2 DOLLAR / 1856 / with a star below. Finding this coin on a shipwreck from 1857 fits perfectly in that these smaller coins were in great demand to make change during the California Gold Rush, as silver coins were still in short supply for common, lower value transactions. Hence these California Fractional Gold coins were made in an around the San Francisco area to ease the silver coin deficit in California and to facilitate making change for transactions with 25C, 50C and \$1.00 gold coins.

- 633 1856 Half Dollar Octagonal. Breen and Gillio-307. High Rarity 5.. PCGS graded Details of Uncirculated, Environmental Damage. Although carefully placed in the Purser's Safe this coin still shows minor environmental damage from being locked away in a safe that ended up on the bottom of the ocean for 157 years. Sadly safes from this period of time were not generally designed to be water tight, and hence some environmental damage has taken place. Clearly identifiable and quite historic with the lovely presentation holder that includes a pinch of gold dust also recovered from this 1857 shipwreck.

A desirable example of this scarce die pairing that shows some reflectivity in the fields. Well struck and historically important as the famed shipwreck went down in September of 1857, so these coins would likely have come along from the original San Francisco voyage, made the transfer in Panama to the *S. S. Central America* on the east side to continue the journey to the United States. The transfer was accomplished over the isthmus. Not many of these historic California Fractional gold coins were found on this shipwreck. An impressive presentation.

- 635 1856 Half Dollar Octagonal. Breen and Gillio-307. High Rarity 5.. PCGS graded Details of Uncirculated, Enviromental Damage. The use of copper in the planchets along with gold was the culprit which caused the environmental damage here to the surfaces while sitting at the bottom of the ocean for over 150 years. These were recovered in the Purser's Safe in 2014 that was finally located and brought to the surface and opened. Not many California Pioneer Fractional Gold coins were found on this shipwreck. HISTORIC KELLOGG & HUMBERT ASSAYERS, 64.08 OZ. BAR #464

- 637 Kellogg & Humbert Assayers, Mold KH-03, 64.08 Oz. at 837 Fine, value in 1857 \$1108.73, Bar #464.. Listed in A California Gold Rush History in the original recovery items on page 1008. This bar was recovered with the initial gold found in 1988 from the shipwreck.

This historic gold bar, measuring 99 mm height, 45 mm wide, 29 mm thick, is from the famous treasure recovered from the 1857 shipwreck of the S.S. Central America. The total number of ingots recovered from Kellogg & Humbert is 343 of which 69 were melted for production of the \$50 Kellogg Commemorative Restrikes. This ingot is from Mold KH-03 and is plated on page 431 of Q. David Bowers' A California Gold Rush History featuring the treasure from the S.S. Central America.

A formidable gold bar, the approximate value of 55 double eagles at the time it was cast and valued by the famed assayers Kellogg & Humbert. As seen on all such gold bars, the top inscription is that of the bar number, unique to each gold bar, in this case No. 464, below is the Assayers name framed within a simple rectangular box Kellogg / & / Humbert / Assayers. It is notable that no location is given, as these bars and their names were well enough known to be valued correctly by anyone likely to see these bars. Below their name in the same large numerical font as the bar number, is the weight, 64.08 oz, below that is .837 Fine. At the bottom of the facing portion of the bar is the value, \$1108.73. As always, the lower right corner of the face of the bar is cut off and that portion was used (prior to valuation) to determine the fineness and thus the value of the bar itself. On the back of the bar the serial number is stamped again, but using a different font. The usual cooling depression is seen on the back of the bar, pulled from mold KH-03 as seen on several other bars from this shipwreck.

Much of this golden cargo was likely expected in a few days after the sinking of the ship to land in New York Harbor, where the gold could be transported anywhere it was needed. Much of the gold in these bars would probably have ended up in Philadelphia where it could be refined and coined into various gold coins that were needed for international as well as local trade. Instead, the hurricane of September, 1857 had other ideas, swamping the S.S. Central America and sending her and much of her gold to the bottom of the sea. Tragically hundreds of lives were lost in the storm as well. The finding of this shipwreck and subsequent recovery of so much of the gold and various artifacts is one of the greatest discoveries of our lifetimes, and to be able to purchase such a significant portion of this treasure would truly be the dream of many collectors. So if you have longed for a historic and timeless golden artifact from the Central America, then look no further than this lot!

FIVE OUNCES OF 1857 ORIGINAL MINED CALIFORNIA GOLD DUST
RECOVERED FROM S.S. CENTRAL AMERICA

Reduced

638 Five Ounces of 1857 Original Mined California Gold Dust Recovered from S.S. Central America. Slabbed by PCGS as #15 of 88. Special PCGS Number 671486.80/37127538. 880+/- Fine, \$90.96 face value. The California Gold Rush Ore were valued at \$20.67 per ounce in 1857, and to be melted into gold bars for striking gold coins. The purser's safe was found some years after the original recoveries from the wreck, due to its weight it likely separated from the sinking ship long before the sinking ship landed on the sea floor. When opened this safe was found to contain a large number of coins and some gold dust, from which these five ounces were recovered. Of considerable historic significance and a rare opportunity to buy some of the gold dust carried on the *S. S. Central America*. The special PCGS tag is signed by Q. David Bowers and Bob Evans. This holder is 21.7mm x 14.2mm.

Estimated Value\$15,000 UP

If this had been redeemed at Blake & Co., it would be worth over \$125,000!

Although this tetradrachm names the Syracusans as the issuing authority, it was actually struck during the rule of Agathokles as tyrant of the city. It was probably struck to finance the increasingly desperate war against the Carthaginians in Sicily that forced Agathokles to flee Syracuse in 310 BC and attempt to inflict losses on Carthage at home. Although he managed to capture several cities on the coast of what is now modern Tunisia, his forces were soundly defeated in 307 BC. At this point, Agathokles abandoned his army (and his two sons!) and secretly sailed back to Sicily. Despite this ignominious end to the war in North Africa, Agathokles had proved himself dangerous enough that the Carthaginians abandoned the siege of Syracuse and accepted a peace settlement. The types of Arethusa and a racing quadriga had been traditional at Syracuse since the fifth century BC, but the issue of Agathokles is notable for its prominent use of an additional triskeles symbol. The triskeles was often used in antiquity as a symbol of the three-cornered island of Sicily and here may advertise his ambition to become the king of all Sicily - a title he finally claimed for himself in 305 BC.

EXTREMELY RARE DOUBLE PRUTAH OF JOHN HYRCANUS I, 134-104 BCE

- 715 **Judaea, Hasmonean Kingdom. John Hyrcanus I (Yehohanan). AE Double Prutah (5.34 g.).** Uncertain Samaritan mint. 'Yehohanan the High Priest and Head of the Council of the Jews' (Paleo-Hebrew), double cornucopia adorned with ribbons, within circular beaded border. *Reverse:* Macedonian helmet with high crest and cheek guards right, within circular beaded border; in lower left field, monogram. **Hendin 1136; TJC grp. H, pl. 18. An important Judean rarity.** Despite the usual rough planchet, this major rarity is among the better examples known with plenty of detail present. **NGC graded Choice Very Fine, Strike: 3/5, Surface: 2/5.**

Estimated Value \$10,000 - UP

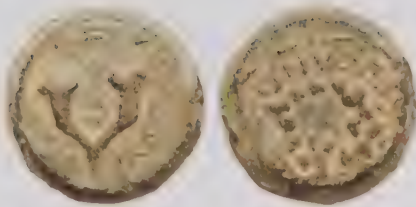

The types of this rare coin depart dramatically from the usual iconographic repertoire of John Hyrcanus I. The parallel double cornucopia is distinct from the splayed double cornucopias of Hyrcanus' main coinage with its apparent associations with the priesthood of the Jerusalem Temple. Here the parallel cornucopias and the Macedonian cavalry helmet may be derived from the roughly contemporary coinage of the Seleukid usurper, Alexander II Zabinas (128-122 BCE). Josephus (AJ 33.93) tells us the Hyrcanus and Zabinas were on friendly terms, presumably because both had an interest in defending their claims to power against the legitimate kings of the Seleukid dynasty.

Green-brown patina with sandy highlights. **Choice Very Fine.**

Estimated Value \$500 - UP

In 40 BCE, at the head of a Parthian army, Mattathias II Antigonus drove Herod the Great and his puppet, the Hasmonean ethnarch, John Hyrcanus II, out of Jerusalem and was proclaimed king and High Priest by the Parthians and his Jewish supporters. Unfortunately, the wily Herod was not so easily defeated and returned in 39 BCE armed with recognition as the Roman client-king of Judaea. The hapless Mattathias II was ultimately defeated and crucified for his troubles, leaving Judaea to begin a new period in its troubled history under the often hated Herodian dynasty.

According to David Sear, the deity on the reverse has traditionally been identified as the Tiber, more recent scholarship has preferred the river Tyne (Tinea) in northern England. This issue was made at the beginning of Hadrian's first great provincial tour, during the course of which he visited the northern frontier region in Britain and began planning the immense military barrier (Hadrian's Wall) which still partially survives in Northumberland and Cumbria. The original eastern terminus of the Wall was on the northern bank of the Tinea at Pons Aelius (now Newcastle-upon-Tyne) named after Hadrian.

The ancilia were the sacred shields of Mars and were associated with the Salii, a college of priests whose ceremonies signified the beginning and ending of a military campaign season. Founded by Rome's second king, Numa Pompilius, the Salii were so-called because one aspect of their ritual involved leaping (salire). Beginning in March they would process throughout the city with the ancilia. At the end of the month, these shields would be cleansed and stored away. In October, the same ritual was performed to mark the end of the season.

This superb piece is the silver twin of the gold pattern Broad, which sold for a hammer price of \$270,000.00 in the Goldberg sale of June 6th 2016 (lot 2285) some five years ago.

The gold sibling, struck from the same dies, was described then by the cataloguer as "an astonishingly well-preserved specimen, likely the finest known, of numismatic importance as a (gold) pattern of similar stature to the famed Petition Crown struck in silver. The collecting opportunity of a lifetime to acquire this historically significant and beautifully made coin."

The description can also be applied to this exquisite silver specimen. Only a tiny number of examples are known to exist, and this is as carefully struck and likely as well preserved as any example offered in past decades.

The 2016 cataloguer narrates the story of Simon and his work. Thomas Simon, born circa 1623, was one of the sons of Peter Simon of Guernsey, whose older brother Abraham was also a medallist. He first came to the attention of Nicholas Briot about 1635 and was engaged as an apprentice at the Royal Mint - his first work being the "Scottish Rebellion" medal of 1639. After the execution of Charles I in 1649 and during the period of The Commonwealth he mostly engraved seals and medals, and was politically neutral.

Around 1650 Cromwell spotted Simon's talent and ordered him to make effigies of 'General Cromwell' to be used to produce gold and silver medals as awards to officers and soldiers who took part in the Battle of Dunbar. Simon's work was so well received that he was selected to engrave dies for Cromwell's portrait coins - struck from 1656 until 1658 (the year of Cromwell's death).

The short-lived milled coinage using Simon's effigy of Oliver Cromwell and his shield, and struck by Blondeau, ended in August 1660 (a few months after the return of the monarchy in the person of King Charles II) but it had shown that the process of hand hammering coins was old fashioned and unable to forestall counterfeiting and the illegal shaving of metal from the uneven coin edges.

Simon's 1660-dated Broads, struck for the new king, had a similar weight and diameter to the gold and silver Broads of Cromwell, minted just a few years earlier in 1656. And as a pattern these were designed to promote the continuation of the series.

Charles II was the first of a new breed of monarchs, and much of his passion was devoted to the arts despite the catastrophes of the first years of his reign - including the Plague and the Great Fire of London. He began building what eventually became the royal art collection of paintings, and he was a magnanimous patron of the flourishing sciences, as well as of architects such as Christopher Wren. Charles took a particular personal interest in sculpture and in the engraving arts as well, to which the superb artistry of this wonderful pattern attests. Here we see a lifelike image of the king replete with touching details shown in considerable relief and with artistic flair.

The fabulous work of engraving art seen in this lot, struck only as a pattern, was largely responsible for the (permanent) introduction of the 'milled' or machine-made coinage as ordered by the King in Council on May 17th 1661 - shortly after this piece was created.

But Simon's immense talent would not serve him ably enough during the Restoration. Thomas Rawlins was reinstated as chief engraver at the mint. In June 1660 he was ordered to prepare a new portrait of the king, but failed to do so on time, and Simon was given the assignment on August 10th of that year. Then came the fateful contest between Thomas Simon and John Roettier of Flanders in February 1662. Simon produced the magnificent and now famous 'Petition Crown' with its stunning royal image and the spectacular edge engraving that petitioned King Charles II to select Simon's work for royal coinage. Perhaps remembering Simon's medal of 1651 (and Simon's other work for Cromwell) the king decided in favour of Roettier, effectively ending Simon's employment at the Royal Mint. He died of the plague in June 1665.

Fortunately, there remains this extraordinary pattern as an everlasting testimony to the talents of one of the world's greatest numismatic engravers.
